

Siraj Anwar, MBBS, MS, CPHIMS

Siraj Anwar Director of Clinical Informatics, Memorial Hermann Health System, and Adjunct Assistant Professor, University of Texas Health Science Center at Houston, School of Biomedical Informatics.

Siraj has been with the Memorial Hermann Healthcare System since 2006 where he is currently responsible for all Informatics initiatives around Quality, Patient Safety, Infection Control and Clinical Decision Support. His work around “CDS Good Catches” was awarded the Breakthrough of the Year in Quality at Memorial Hermann in 2010.

Dr. Anwar has been instrumental in implementing the Clinical Decision Support (CDS) program at Memorial Herman. With the help of CDS, Dr. Anwar is able to leverage the EHR to create smart processes and systems to prevent Adverse Drug Events (ADEs) and optimize workflows to help provide the best possible outcomes.

Dr. Anwar is a member of the American Medical Informatics Association (AMIA) and the Health Information and Management Systems Society (HIMSS). He is a trained Family Physician, having received his Medical Degree from the University of Mysore, India in 2000. He also has a Masters in Health Informatics from the University of Texas Health Science Center at the School of Biomedical Informatics and is a Certified Professional in Healthcare Information and Management Systems (CPHIMS).
