Affinity Groups

CNIO

Affinity Groups are intimate forums focused on a shared issue, topic or the collective challenges of its members. The goal is to share similar concerns and challenges, best practices, lessons learned, industry trends and resources to help their organizations thrive.

Indispensable Leadership

CNIOs are charged with integrating IT, patient care and patient engagement in ways not previously achieved. The first CNIO Summit brought together CNIOs from Texas Health Resources (THR), Avera, Houston Methodist, CHRISTUS, Northern Light, Advocate, UCLA and New York-Presbyterian. Since then, this group has grown to 50+ leaders that meet in person and via Dialogue Calls, discussing clinical transformation, accountable care, community health, EHR optimization data analytics and more.

Register to be Invited

Please create an SI profile – takes just 2 minutes—and you’ll gain access to member-only content and events. When you create a profile, you indicate your topics of interest (such as clinical informatics) and that will make sure you are informed about SI events and news that interests you most.
