Affinity Groups

CISO

Affinity Groups are intimate forums focused on a shared issue, topic or the collective challenges of its members. The goal is to share similar concerns and challenges, best practices, lessons learned, industry trends and resources to help their organizations thrive.

Cybersecurity Superheroes

These modern-day cybersecurity superheroes have earned a great reputation as being some of the World’s Best. SI’s Chief Information Security Officer Affinity Group regularly convenes for Dialogue calls and in-person Summits. Discussion topics range broadly and include everything from security technologies, network and security architecture, threats at all levels, and deciphering federal and state regulations and compliance rules, and more.

Register to be Invited

Please create an SI profile – takes just 2 minutes—and you’ll gain access to member-only content and events. When you create a profile, you indicate your topics of interest (like cybersecurity) and that will make sure you are informed about SI events and news that interests you most.
