

Rick joined AIS in December of 2011 working on the Seton Ambulatory Team as Program Manager. Rick was then appointed the Seton Director of Ambulatory and Acute Business Services. Rick joined the IT Strategy and Business Development team in July of 2014 as Sr. Director of Business Development. In this position the Ascension Enterprise Solutions Architecture was framed and implemented to support the Clinically Integrated Systems of Care, enhanced and predictive analytics and the Ascension Quadruple Aim. Prior to joining AIS Rick had more than 10 years of healthcare experience in disciplines that include clinical research, regulatory filings for both the US FDA and Asian regulatory agencies, Product development for diagnostics, prognostics and therapeutics, IS operations, healthcare administration, and healthcare education. Prior to working in the healthcare industry Rick held a number of leadership positions with Verizon and Intel. Rick is a Certified Professional in Healthcare Information and Management Systems and holds a MBA and a BS in Accounting.
