

Fiona McNaughton is the Sr. Director of Solution Management for the Patient Care Solutions at Truven Health Analytics. She has been with Truven Health for eight years, managing solutions domestically and abroad in the areas of Clinical Decision Support, Clinical Surveillance and Patient Education and serving as the primary Product and Market Strategist for the mobile applications in each area; including the most downloaded Drug Information (Micromedex® Drug Information) application on the market. Fiona currently oversees the market planning Product Solution team covering the Micromedex Clinical Evidence, Patient Connect and 360 Care Insights product lines serving hospital, clinical, and pharmaceutical markets serving 5,000+ hospitals and health systems in over 80 countries worldwide. Fiona has an MBA with an emphasis in Technology Management from the University of Phoenix.
