

Yohan Vetteth, M.B.A

Vice President, Healthcare Data and Analytics Stanford Healthcare

Mr. Vetteth joined Stanford Healthcare in March 2011, and is currently the Vice President, Healthcare Data and Analytics. His responsibilities include driving enterprise clinical and business improvement efforts through data analytics and reporting, establishing and maintaining the enterprise data governance processes, and developing the interaction model for back-end data source (enterprise data warehouse).

Prior Experience

Prior to joining Stanford, Mr. Vetteth was a Partner at Accenture and led the Healthcare IT Strategy practice in the US. His clients included both healthcare providers and payers with whom he partnered to develop and implement IT and Analytics enabled business strategies.

Prior to Accenture, Yohan held leadership positions at multiple entrepreneurial ventures that included Jamcracker and vCIO. At Jamcracker, Yohan was part of the initial senior executive team that launched one of the pioneering cloud computing platforms that integrated early stage SaaS offerings. He was also a member of the high tech strategy practice of Arthur D. Little where he helped leading high tech companies formulate their ebusiness and application strategies.

Education, Awards and Professional Affiliations

Yohan holds a Masters of Business Administration from University of San Francisco where he was both a McLaren Fellow and a member of the Beta Gamma Sigma Honor Society. He also earned a Bachelor of Science (Physics) from Loyola College in Madras, India.
