

## **Mike Wall – PHARMD, MBA**

UChicago Medicine's Chief Analytics Officer, Michael Wall is formally trained in pharmacoeconomics and now helps lead UCM's efforts in transforming to a data-driven enterprise. Michael provides executive leadership for our clinical and operational data and analytics teams. He collaborates with other leaders to develop and deploy a data and analytics delivery model that is sustainable and effective in meeting the needs of data-driven practice and operations for the growing health system. He is an expert on analytic methods for quality, safety, and patient experience who routinely teaches on quality analytics at the national level.
