[The Journey to Ambient Clinical Intelligence at Rush U. Med Center](#)

[Using AI to ID COVID-19 Patients at High Risk of Clinical Deterioration](#)

[EMR Patient Safety Effectiveness Study: Medical Errors Still Persist](#)

# SI CMIO Affinity Group

SI Affinity Groups are intimate forums focused on a common issue, topic or collective challenge of its members, with a goal of information sharing around similar concerns, best practices, lessons learned, industry trends and resources to help organizations thrive.

### Leading the Way

CMIOs pioneered the EHR era and are now positioned to lead the digital-health revolution. As they assume executive leadership roles on a much wider scope, they face a complex yet exciting array of challenges. SI's **CMIO Affinity Group** regularly convenes 20 to 30 CMIOs for Dialogue calls and in-person and virtual Summits. Discussion addresses myriad clinical informatics topics, including patient-generated data and the EHR, clinical/EMR governance and equipping the clinician workforce for the future.

Plus, if you want to know what your peers are doing and thinking *right now*, join SI's **CMIO Affinity Group MS Teams site** to facilitate ongoing, ad hoc, open discussion and collaboration among the CMIO peer group.

### Register for Your Invite

Please take two minutes to [create an SI profile](#) to gain access to these **member-only** events and content. You get to specify which topics are of most interest to you, thereby customizing your notifications and news to fit your busy schedule.

---

***“A fabulous opportunity to have open discussion with my peers about key issues that we all face, and to hear what has/hasn’t worked at their organizations.”***

***– Michele Lauria, MD, former CMIO, Northern Light***

---

### For More Information

To participate or guest-lead one of our future calls, please contact Affinity Group Director **Cynthia Schroers** ([cschroers@scottsdaleinstitute.org](mailto:cschroers@scottsdaleinstitute.org)). Some hosts share background materials to support discussion; just ask for samples or access information on SI TEAMS as well.
