Teleconferences :

[Field Hospital Experience from Scripps and Atrium Health](#)

[Workplace Violence Policies at THR: How Does it Impact our Clinical Staff?](#)

[Deciphering Clinical IT at Baystate, Rush and Banner](#)

SI CNIO Affinity Group

SI Affinity Groups are intimate forums focused on a common issue, topic or collective challenge of its members, with a goal of information sharing around similar concerns, best practices, lessons learned, industry trends and resources to help organizations thrive.

Compassion in Action

CNIOs are charged with integrating IT, patient care and engagement in ways not previously achieved. SI's **CNIO Affinity Group** has grown to over 50 leaders who meet in person, virtually and via Dialogue calls and Summits to discuss clinical transformation, accountable care, community health, EHR optimization, data analytics and more.

Plus, if you want to know what your peers are doing and thinking *right now*, join SI's [CNIO Affinity Group MS Teams site](#) to facilitate ongoing, ad hoc, open discussion and collaboration among the CNIO peer group.

Register for Your Invite

Please take two minutes to [create an SI profile](#) to gain access to these **member-only** events and content. You get to specify which topics are of most interest to you, thereby customizing your notifications and news to fit your busy schedule.

“We are specialists in utilization of technology in nursing practice. That is the definition of who this group is.”

– Jennifer Carpenter, MSN, RN, VP Clinical IT, University Hospitals

For More Information

To participate or guest-lead one of our future calls, please contact Affinity Group Director **Cynthia Schroers** (cschroers@scottsdaleinstitute.org). Some hosts share background materials to support discussion; just ask for samples or access information on SI TEAMS as well.
