OSF HealthCare's COVID-19 Digital Response

SI Innovation Affinity Group

SI Affinity Groups are intimate forums focused on a common issue, topic or collective challenge of its members, with a goal of information sharing around similar concerns, best practices, lessons learned, industry trends and resources to help organizations thrive.

Creativity in Community

The **Innovation Affinity Group** regularly convenes 20 to 35 Chief Innovation/Transformation Officers for Dialogue calls and in-person and virtual Summits.

Discussion topics include strengthening digital health, aligning innovation to organizational strategy, innovating successfully around communication and more. Plus, if you want to

know what your peers are doing and thinking *right now*, join SI's **Innovation Affinity Group MS Teams Site** to facilitate ongoing, ad hoc, open discussion and collaboration among the Innovation peer group.

Register for Your Invite

Please take two minutes to create an SI profile to gain access to these **member-only** events and content. You get to specify which topics are of most interest to you, thereby customizing your notifications and news to fit your busy schedule.

“What’s unique about SI is they bring executives together to talk about what really works, what doesn’t, and why. That results in a very unique learning experience for our team.”

– Paul T. Brown, Henry Ford Health System

For More Information

To participate or guest-lead one of our future calls, please contact Affinity Group Director **Cynthia Schroers** (cschroers@scottsdaleinstitute.org). Some hosts share background materials to support discussion; just ask for samples or access information on SI TEAMS as well.
