SI SDoH Affinity Group

SI Affinity Groups are intimate forums focused on a common issue, topic or collective challenge of its members, with a goal of information sharing around similar concerns, best practices, lessons learned, industry trends and resources to help organizations thrive.

Studying Communities, Envisioning Care

The Social Determinants of Health (SDoH) Affinity Group empowers 40+ Chief Community Health Officers and other executives accountable for SDoH activities to collaborate on approach, program development, and structures defining Community Health for their organizations.

Via Dialogue calls and in-person and virtual Summits, the **SI SDoH Affinity Group** offers leaders a forum to innovate and share solutions that ensure the practice of medicine is inclusive and widespread. Plus, if you want to know what your peers are doing and thinking *right now*, join SI's [SDoH Affinity Group MS Teams Site](#) to facilitate ongoing, ad hoc, open discussion and collaboration among the SDoH peer group.

“I have found SI to be a great source for peer networking, information sharing, and healthcare industry thought-leadership.”
– Heather Nelson, University of Chicago

Register for Your Invite

Please take two minutes to [create an SI profile](#) to gain access to these **member-only** events and content. You get to specify which topics are of most interest to you, thereby customizing your notifications and news to fit your busy schedule.

For More Information

To participate or guest-lead one of our future calls, please contact Affinity Group Director **Cynthia Schroers** (cschroers@scottsdaleinstitute.org) to share topics for discussion. Some hosts share background materials to support discussion; just ask for samples.
